J K ROSHAN KERKETTA

BIM MANAGER | INFORMATION MANAGEMENT | DIGITAL DELIVERY & AUTOMATION

Dubai, UAE • kuldeep3618x@gmail.com • linkedin.com/in/j-k-roshan-kerketta-a2a4a669

11+	12	3	5+
YEARS OF EXPERIENCE	ADD-IN TOOLS IN 2 SUITES	GIGA-SCALE PROJECTS	PLATFORMS: REVIT · ACC · APS · POWER BI

SKILL PROFICIENCY

- BIM Management & Coordination
- Revit / Navisworks Add-in Dev.
- Autodesk Platform Services (APS)
- Power Platform & Dashboards
- AI-Assisted Development

CAREER FOCUS

- BIM Management & Coordination
- Automation & Software Dev
- APS & Cloud Integration
- Power Platform & Dashboards

AUTODESK PLATFORM

- Revit · Navisworks Manage
- AutoCAD · Civil 3D · Dynamo
- Autodesk Construction Cloud (ACC)
- Autodesk Platform Services (APS/Forge)

DEV & AUTOMATION

- C# / .NET · Revit & Navisworks API
- Python · pyRevit · JavaScript
- TypeScript · React · Node.js
- Power BI · Power Automate · Power Apps
- Git · Azure

CERTIFICATIONS

- Programming Foundations: Algorithms
- AI Tools Workshop
- Learning Python

PROFILE SUMMARY

BIM Manager and Lead Architect with 11+ years in BIM management, information management and design automation, delivering large-scale, complex, multidisciplinary projects — airports, stadiums, high-rise towers and giga-projects. I define project information strategy, develop BIM Execution Plans (BEP), and set up and manage Common Data Environment (CDE) structures, workflows and protocols in Autodesk Construction Cloud (ACC) in line with ISO 19650, keeping information structured, governed and consistent across all disciplines. I am also a hands-on developer: I ship the tools teams use in C#, JavaScript/TypeScript, Python and Dynamo — two installable add-in suites for Navisworks and Revit (12 tools), and Autodesk Platform Services (APS) web apps with React and Node.js that connect ACC to Power BI and Microsoft Fabric. I use AI-assisted development to ship internal tools faster, turning repetitive BIM and data tasks into reliable, self-service applications.

NOTABLE PROJECTS

NEOM Trojena Vault
Concept → Detailed Design — Saudi Arabia

Mirage Depot
Design & BIM Coordination — NEOM

High-Rise Towers
Design & BIM Delivery — Dubai/Bengaluru

Bin Rashid Stadium
BIM Coordination — Dubai

Al Maktoum Airport
Model Coordination — Dubai

YAS-IB Housing
Dynamo Automation — Abu Dhabi

AUTOMATION & APPLICATION PORTFOLIO

Navisworks Tools Suite · v2.1.5

Six-tool Navisworks 2025 suite (C#, WPF): clash tolerance, approval, analyser, parameter checker, viewpoint comments, hide by category.

Revit Tools Suite · v1.4.1

Six-tool Revit 2024/2025 suite: clash and shared parameters, warning remover, workset assigner, link loader, model health check.

BIM-Q Central · APS platform

Tracks model-sharing compliance and issue progress per trade from ACC, with Excel/PDF reports and BIM Manager setup. Deployed.

AddinHub · add-in control board

Deploys, rolls back and monitors Revit/Navisworks add-ins by user or office through a PC agent, with a kill switch. In development.

ACC → Power BI / Fabric pipelines

APS GraphQL dataflow into Power BI, a Node.js bridge to Fabric, and Power Automate file-log logging to SharePoint.

APS web apps & open source

Model health checks (Design Automation), MIDP/TIDP delivery checker, SheetForge; NVClashAnalytics and RevitActiveQualityMonitor on GitHub.

- Using Python with Excel
- Python Essential Training

LANGUAGES

English — Full Professional

Hindi — Native / Bilingual

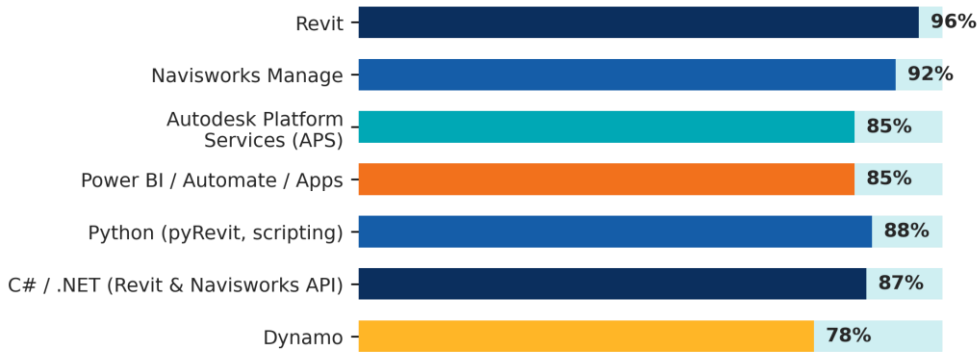

HONORS

NASA Industrial Design Trophy, 2011

EDUCATION

B.Arch — School of Planning & Architecture, New Delhi (2015)

TOOLS & PLATFORMS USAGE

PROFESSIONAL EXPERIENCE

BIM Manager | OBMI (OBM International)

Apr 2026 - Present • *Dubai, UAE*

- Lead BIM and information management strategy, standards and execution planning across live projects: model quality, information delivery and clash resolution.
- Set up and manage Common Data Environment (CDE) structures, workflows and protocols in Autodesk Construction Cloud (ACC), working to ISO 19650 and keeping information governed across all disciplines.
- Ship two versioned, installable add-in suites for the team: the Navisworks Tools suite v2.1.5 (Clash Tolerance, Approval, Analyser, Parameter Checker, Viewpoint Comments, Hide By Category) and the Revit Tools suite v1.4.1 (Clash and Shared Parameters, Warning Remover, Workset Assigner, Link Loader, Model Health Check), each with a changelog and user guide.
- Built and deployed BIM-Q Central, an APS web platform that tracks model-sharing compliance and issue progress per trade in ACC, and am building AddinHub, a control board and PC agent that deploys, rolls back and monitors the add-ins by user or office.
- Built an ACC to Microsoft Fabric data pipeline (APS Model Derivative, OneLake/Delta tables) feeding Power BI model and data quality reporting; published open-source tools on GitHub: NVClashAnalytics, RevitActiveQualityMonitor and SheetForge.
- Apply AI tools and scripting to turn repetitive BIM workflows into reusable applications.

Senior BIM Architect | LACASA Architects and Engineering Consultants

Sep 2025 - Apr 2026 • *Dubai, UAE*

- Led architecture design and design development on high-rise projects, from design options to coordinated, submission-ready packages.
- Led the design team and coordinated MEP with architecture in the BIM model, resolving interface issues early.
- Set up BIM models and projects to client requirements; kept the team synchronized on complex, multidisciplinary models.
- Prepared and managed Dubai Municipality submittals.

Lead Architect | Khatib & Alami

Mar 2025 - Aug 2025 • *Bengaluru, India*

- ADEK Schools, Abu Dhabi (ALDAR): 1680-capacity Boys and Girls Schools and 2040-capacity Boys School; delivered the Schematic Design package for the 1680 and 2040 Boys Schools.
- Led design development, design options and MEP coordination; set up models and projects to client requirements and kept the team synchronized.

- Prepared Tasareeh/authority submissions, the LDN package and Abu Dhabi Civil Defense submissions; carried out value engineering against client requirements (CRS).
- Managed workforce and resource planning, action tracking and quality audits.

Senior Architect | BIM Specialist | LACASA Architects and Engineering Consultants
Oct 2024 - Feb 2025 • *Dubai, UAE*

- Led architecture design and design development on high-rise projects, from design options to coordinated, submission-ready packages.
- Led the design team through design development and MEP coordination; set up BIM models and projects to client requirements.
- Used Dynamo and Python to automate repetitive BIM tasks; prepared and managed Dubai Municipality submittals.

Architect and BIM Coordinator | Jacobs
Jan 2023 - Oct 2024 • *Dubai, UAE*

- Delivered concept and schematic design, detailed design, and design and BIM coordination across disciplines on NEOM Trojena (Vault and Mirage Depot) and The Rig.
- Supported constructability, logistics and discarded-material schematics, temporary road works and excavation works.
- Supported TBM launching strategy, gantry, crawler and tower crane deployment strategy, project 4D simulation and The Rig POD modularity design.

Project Engineer | Software Developer III | AECOM
Nov 2020 - Dec 2022 • *Bengaluru, India*

- Software Developer in the AEC sector: designed, documented and tested BIM automation products and trained staff to use them.
- Automated workflows and delivered advanced data management and verification of BIM data using custom-built applications.
- Developed and deployed desktop applications in Python (tkinter) with Figma and Adobe XD for UI/UX; built a Selenium web-scraping application to extract bulk data from websites.
- Worked on the Forge Platform (now APS) and Power BI for data analysis. Stack: Python, JavaScript, Node.js, React, HTML, CSS, Bootstrap, VB.NET, Git, Azure.

Architect and BIM Coordinator | Dar Al-Handasah (Shair and Partners)
Dec 2017 - Oct 2020 • *Pune, India*

- Architecture design, coordination and workflow management on large-scale projects incl. Sheikh Mohammed Bin Rashid Stadium, Ibn Battuta Mall Expansion and Hotel.
- Used Dynamo and Python to automate processes and improve efficiency across project workflows (R&D in automation, Dec 2017 to Nov 2020).
- Created BIM models of Dubai International Airport as-built facilities to support long-term reliability assessment and asset management.

BIM Architect | AtkinsRéalis
Aug 2017 - Dec 2017 • *Bangalore*

- BIM Architect on the YAS-IB housing project at Yas Island, Abu Dhabi.
- Applied Dynamo scripting to improve efficiency and automate BIM workflows.

Architect and BIM Coordinator | Dar Al-Handasah (Shair and Partners)
Aug 2015 - Jul 2017 • *Pune, India*

- Architectural design and structural/MEP coordination; construction drawings (concept to tender), details, schedules, presentations, fire and life safety and acoustic reports.
- BIM/model coordinator (Revit) on Sheikh Mohammed Bin Rashid Stadium and Al Maktoum International Airport: central models, large-scale Revit models and families.
- Clash detection of Revit models in Navisworks with MEP coordination.

Architectural Intern | RHAA Landscape Architecture + Planning
Feb 2014 - Jul 2014 • *New Delhi*

- Prepared concept and design development plans, construction documents, BOQs and 3D visualisations.
